INDEPENDENT AUDITOR'S REPORT

Township of Bridgehampton
Sanilac County
Carsonville, Michigan 48419

We have audited the accompanying financial statements of each major fund and the aggregate remaining fund information of the Township of Bridgehampton as of and for the year ended March 31, 2007, which collectively comprise the Township's basic financial statements required by accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Township of Bridgehampton's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Management has not presented government-wide financial statements to display the financial position and changes in the financial position of its governmental activities. Accounting principles generally accepted in the United States of America require the presentation of government-wide financial statements. The amounts that would be reported in government-wide financial statements for the Township of Bridgehampton's governmental activities are not reasonably determinable.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Township of Bridgehampton as of March 31, 2007, or changes in its financial position or cash flows where applicable, for the year then ended.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental financial information listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the general-purpose financial statements of Bridgehampton Township. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

TOWNSHIP OF BRIDGEHAMPTON, SANILAC COUNTY
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

DESCRIPTION OF TOWNSHIP OPERATIONS AND FUND TYPES:

The Township of Bridgehampton covers an area of approximately 36 square miles within Sanilac County. The Township operates under an elected Board of Trustees and provides services to its more than 800 residents in many areas including law enforcement, administration of justice, community enrichment and development and human services.

The financial statements of the Township of Bridgehampton have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

REPORTING ENTITY:

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP, currently GASB Statement #14, the Financial Reporting Entity.

Based upon the application of these criteria, the general purpose financial statements of the Township of Bridgehampton contain all the funds and account groups controlled by the Township Board of Trustees as no other entity meets the criteria to be considered a blended component unit or a discretely presented component of the Township nor is the Township a component unit of another entity.

FUND ACCOUNTING:

The government uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government.

Account groups are used to account for fixed assets and long-term liabilities that are not reported in the respective governmental funds.

BASIS OF ACCOUNTING:

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

TOWNSHIP OF BRIDGEHAMPTON, SANILAC COUNTY
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

BASIS OF ACCOUNTING (Continued):

All proprietary funds and nonexpendable trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations of these funds are included on the balance sheet. Fund equity (i.e. net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (i.e. revenues) and decreases (i.e. expenses) in net total assets.

The modified accrual basis of accounting is used by all governmental fund types and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers property taxes as available if they are collected within 60 days after year-end. A one-year availability period is used to revenue recognition for all other governmental fund revenues susceptible to accrual. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due.

Those revenues susceptible to accrual are property taxes, federal and state grants, special assessments, licenses, interest revenue and charges for services. Fines, permits and sales tax and other state revenues are not susceptible to accrual because generally they are not measurable until received in cash.

BUDGETS AND BUDGETARY ACCOUNTING:

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general and special revenue funds. All annual appropriations lapse at fiscal year-end.

Encumbrances represent commitments related to unperformed contracts for goods or services. The Township does not utilize encumbrance accounting.

CASH AND INVESTMENTS:

Cash includes amounts in petty cash and demand deposits. Investments included instruments allowed by state statute subsequently described. Investments are carried at amortized cost or fair value. The Township's deposits and investments are in accordance with statutory authority.

State statutes authorize the Township to invest in bonds, securities, and other direct and certain indirect obligations of the U.S. Treasury, which include securities issued or guaranteed by the Government National Mortgage Association; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; and in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase and not totaling more than 50% of any fund at any time. The Township is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

SHORT-TERM INTERFUND RECEIVABLES/PAYABLES:

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

TOWNSHIP OF BRIDGEHAMPTON, SANILAC COUNTY
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

RECEIVABLES:

Receivables consist primarily of amounts for taxes and customer charges. No allowance for doubtful accounts is considered necessary and credit risk is minimal because of the large number of customers and the authority of the Township to add receivables to the tax rolls which are secured by the underlying property.

FIXED ASSETS:

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. All purchased fixed assets are valued to cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are value at their estimated fair market value on the date received. Fixed assets purchased within the proprietary funds and the non-expendable trust fund are reported as assets within those funds and accordingly, are included on their balance sheet.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Public domain ("infrastructure") general fixed assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are not capitalized, as these assets are immovable and of value only to the government. Primarily because of this policy, total expenditures for capital improvements in the governmental funds do not equal total additions to the general fixed asset account group.

Assets in the general fixed assets account group are not depreciated.

LONG-TERM OBLIGATIONS:

Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group.

INTERFUND TRANSACTIONS:

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-reoccurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

MEMORANDUM ONLY - TOTAL COLUMNS:

The total columns on the combined statements are captioned memorandum only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data. Prior year memorandum total amounts have been updated for comparative purposes.

TOWNSHIP OF BRIDGEHAMPTON, SANILAC COUNTY
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

ESTIMATES:

The preparation of financial statements in conformity with the U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - CHANGES IN GENERAL FIXED ASSETS:

A summary of changes in general fixed assets follows:

	BALANCE MARCH 31, 2006	<u>ADDITIONS</u>	<u>REDUCTIONS</u>	BALANCE MARCH 31, 2007
GENERAL GOVERNMENT:				
Township Hall	\$ 87,637			\$ 87,637

TOTAL GENERAL FIXED ASSETS	<u>\$103,264</u>	<u>\$ </u>	<u>\$ </u>	<u>\$103,264</u>

NOTE 3 - CASH AND INVESTMENTS:

Cash and investments are held separately by each of the Township's funds.

DEPOSITS:

At year-end, the carrying amount of the Township's deposits was \$111,064 and the bank balance was \$ 141,057, \$ 100,000 of which was covered by federal depository insurance.

INVESTMENTS:

The Township's investments are categorized to give an indication of the level of risk assumed by the Township at year-end. Category 1 includes investments that are insured or registered, or securities held by the Township's or the Township's agent in the Township's name. Category 2 includes investments that are uninsured and unregistered, with securities held by the counter-part's trust department or its agent in the Township's name. Category 3 includes investments that are uninsured and unregistered, with the securities held by the counter-party, or by its trust department or its agent but not in the Township's name. At March 31, 2007, the Township had no Category 1, 2 or 3 investments. Additional disclosures required by GASB 40 are not included in the accompanying financial statements.

The Township's cash, cash equivalents, investments and restricted assets at March 31, 2007 are composed of the following:

	CASH AND CASH EQUIVALENTS	<u>INVESTMENTS</u>	RESTRICTED ASSETS
General Fund:			
Deposits	\$106,190

NOTE 4 - LEGAL COMPLIANCE - BUDGETS:

The Township follows these procedures in establishing the budgetary data reflected in the financial statements.

1. On or prior to April 1 of each year, a proposed budget is submitted to the Board of Trustees for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments.
3. Prior to April 1, the budget is legally enacted through passage of a resolution.
4. Any revisions of the budget must be approved by the Board of Trustees.
5. Formal budgetary integration is employed as a management control device during the year for the general fund and special revenue funds.
6. Budgets for general and special revenue funds are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts are as originally adopted, or as amended by the Board of Trustees during the fiscal year. Individual amendments were not material in relation to the original appropriations which were amended.
7. The budget is prepared by fund and function and includes information on the past year, current year estimates and requested appropriations for the next fiscal year. Expenditures may not exceed budget at the function level.

NOTE 5 - DUE TO AND FROM OTHER FUNDS:

Due to and from other funds balances at March 31, 2007 are as follows:

<u>FUND</u>	<u>DUE FROM OTHER FUNDS</u>	<u>DUE TO OTHER FUNDS</u>
General Fund	\$ 8,997	
Special Revenue Fund	3,658	
Trust and agency:		
Current Tax Collection Fund	<u>-</u>	<u>\$12,655</u>
TOTAL	<u>\$12,655</u>	<u>\$12,655</u>

NOTE 6 - PROPERTY TAX REVENUE:

Property taxes become an enforceable lien on the property as of July 1 and December 1. Taxes are levied on July 1 and December 1 and are due in September and February. The Township bills and collects its own property taxes and also taxes for the county, intermediate school district, state education fund and school districts. All tax collections are accounted for in the tax collection fund, an agency fund. Township tax revenues are recognized in the fiscal year that includes the December 1 levy date. The Township levied .8902 mills for operations and 1.00 mill for roads on an Taxable Value of \$23,966,811. The Township did not collect the SET tax during the summer of 2006. These taxes were collected by the State of Michigan.

NOTE 7 – LANDFILL CONTRACT:

On March 17, 1987 the Township entered into an agreement with Michigan Waste Systems, Inc. for the construction and operation of a sanitary landfill in the Township. The agreement is for 99 years. The Township receives a monthly fee based on the per cubic yard for all waste placed in the landfill. Under the terms of the agreement, the Township residents receive free disposal of normal residential waste. Township residents also receive employment preference when employment opportunities arise.

NOTE 8 – DEFERRED COMPENSATION PLAN:

The Township offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan which is available to all Township employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The Township is neither the plan administrator nor the plan fiduciary and therefore the plan assets and related liability for future benefits are not included in the Township financial statements.

NOTE 9 - RISK MANAGEMENT:

The Township is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The Township carries commercial insurance to cover any losses that may result from the above-described activities. The Township did not have any losses in the three prior fiscal years.

NOTE 10 – GENERAL LONG TERM DEBT/SPECIAL ASSESSMENT:

The township issued a note for the Township Hall building on December 15, 1997, with the first payment due on January 15, 1998. The amount financed was \$83,597 at 6% ordinary interest. The mortgage is for 15 years with monthly payments of \$706 for principal and interest. The interest rate on the note was reduced to 5.25% in April 2004 and the monthly payment was reduced to \$609.

To the Board of Bridgehampton Township:

In planning and performing our audit of the financial statements of Bridgehampton Township as of and for the year ended March 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered Bridgehampton Township's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiencies constitute material weaknesses:

After considering the qualifications of the accounting personnel of Bridgehampton Township, we believe that the personnel have the abilities to maintain the day-to-day bookkeeping of the Township, but they do not have the qualifications and abilities to generate financial statements, including the required footnotes, in accordance with accounting principles generally accepted in the United States of America.

This communication is intended solely for the information and use of management, Bridgehampton Township, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.
